

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

MAY 1 through 15, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **May 1 through 15, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Use your dishwasher and washer/dryer wisely. Only wash full loads. Let dishes air dry. Avoid washing during peak hours.

Federal Notices

<u>Intergovernmental Review Notices (May 1st-15th, 2001)</u>

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Department of the Interior, U.S. Fish & Wildlife Service

CONTACT: Patricia Foulk

TELEPHONE: (916) 441-6566

E-MAIL: Patricia_foulk@fws.gov

ADDRESS: Sacramento Fish & Wildlife Service, 2800 Cottage Way, Room W-2605, Sacramento, CA 95825

DESCRIPTION: In response to a court order, the U.S. Fish and Wildlife Service designated 23,903 acres of critical habitat for the threatened bay checkerspot butterfly in California's San Mateo and Santa Clara counties.

COMMENT BY: N/A

AGENCY: Federal Energy Regulatory Commission

CONTACT: N/A

TELEPHONE: N/A

E-MAIL: N/A

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426

DESCRIPTION: The Commission grants an order on rehearing for a new license issued by the Commission on March 6, 2001, for the continued operation and maintenance of PG&E's Haas-Kings River Project No. 1988-025. PG&E asks for two changes to the terms of the license: (1) the deletion of a requirement that it obtain state permission for work activities occurring in streambeds, and (2) the limitation to certain months on minimum instream flow requirement. The Commission grants rehearing on the first request, deny on the second, and makes certain other modifications to the license.

AGENCY: Fish and Wildlife Service

CONTACT: Michael Fris or Stephanie Brady

TELEPHONE: (916) 414-6600

E-MAIL: fwlsplittail@fws.gov

ADDRESS: Field Supervisor, Sacramento Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2800 Cottage Way, Suite W-2605, 95825

DESCRIPTION: The U.S. Fish and Wildlife Service has re-opened the comment period for the Sacramento splittail, a silvery-gold member of the minnow family. The extended comment period is a reaction to the allocations from the San Luis & Delta-Mendota Water Authority and the State Water Contractors sued the Service, alleging that the best scientific and commercial data available was not used. Comments previously submitted during the January to February comment period need not be resubmitted as they will be incorporated into public record as part of the re-opened comment period, and will be fully considered in the final rulemaking. Final determination will be made by the court-ordered date of June 22, 2001.

COMMENT BY: June 7, 2001

AGENCY: Federal Energy Regulatory Commission

CONTACT: CarLisa Linton or Anum Purchiaroni

TELEPHONE: (202) 219-2802 or (202) 219-3297

E-MAIL: Carlisa.lintonpeters@ferc.fed.us or anumzziatta.purchiaroni@ferc.fed.us

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426

DESCRIPTION: An amendment of license for a hydroelectric application has been filed by the City of Escondido with the Commission and is available for public inspection. The proposed project would replace the Rincon and Wohlford penstocks, two structurally degraded pipelines in northern San Diego County.

<u>Documents Received on Tuesday, May 01, 2001</u>			
1997122007	Mountain Springs Community Plan Tuolumne County Sonora--Tuolumne The proposed project involves the development of approximately 1,119 acres, surrounding the existing Mountain Springs Golf Course, into various urban land uses including single family, multiple family and estate residential, as well as neighborhood commercial type uses. Specifically, the project provides for the development of 2,076 dwelling units, 34 acres of commercial and 295 acres of open space. The existing Mountain Springs Golf Course covers approximately 187 acres and is to be designated as a commercial/recreational land use. Project buildout will be done in phases. Development of the Mountain Springs project will require the extension of public water and public sewer lines and improvements to Tuolumne Utilities District's water and sewer facilities. Access to the project site is proposed to be from Lime Kiln Road which is proposed to be improved, including replacement of the bridge across Sullivan Creek, as part of the Mountain Springs Community Plan project.	FIN	
2001051004	Northeast Valley Middle School/High School Oceanside Unified School District Oceanside--San Diego Acquisition of property and the construction and operation of a middle school and a high school. The middle school would serve 1,400 students in grades 6th through 8th. The high school would serve 2,600 students in grades 9th through 12th. Building coverage, based on maximum enrollments would range from approximately 112,000 square feet at the middle school to approximately 240,000 square feet at the high school. At a minimum, it is anticipated that the schools would share athletic facilities. Libraries, multipurpose rooms, science and technology facilities may also be jointly used.	NOP	05/30/2001
2001052003	Strong Neighborhoods Initiative Redevelopment Plan San Jose, City of San Jose--Santa Clara Strong Neighborhoods Initiative Redevelopment Plan intends to "strengthen" 19 selected neighborhoods within the City of San Jose by improving physical conditions, enhancing community safety, expanding community services, facilitating private development, and strengthening neighborhood associations. 1998091007	<p>State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano</p> <p>Caltrans, Planning</p> <p>Palmdale--Los Angeles</p> <p>The proposed project is located in an unincorporated area of North Los Angeles County on State Route 138 between Avenue T and the junction of State Route 18. From Avenue T to the junction of State Route 18 the highway is a two-lane undivided rural arterial highway with only two passing lanes (between 60th and 75th Streets and 106th and 116th Streets East). The project proposes to widen the existing highway to a standard four-lane conventional highway for a distance of approximately 18.0 miles. Other proposed features for the highway widening are curve corrections, junction realignment, and a proposed connector from eastbound State Route 138 to eastbound State Route 18 and bridge widening.</p>	EIR	
2000091025	<p>Arroyo Trabuco Golf Course</p> <p>Orange County</p> <p>Mission Viejo--Orange</p> <p>The proposed project is comprised of the following components: The development of an 18-hole public golf course, extension of the Arroyo Trabuco Riding and Hiking Trail, zone change from Sand and Gravel (SG) and Agricultural (A-1) to Open Space, and Reclamation of certain mined areas in the Arroyo Trabuco within the project site.</p>	EIR	06/15/2001
2001032012	<p>Sierra Valley General Plan Amendment GPA# 5-97/98-15</p> <p>Plumas County Planning Department</p> <p>--Plumas</p> <p>The proposed amendments will change General Plan land use designations from Low Density (3 to 20 acre) Residential to Important Agricultural areas. Approximately 2,443 acres are proposed to be changed from Low Density Residential to General Agriculture. The overall effect of the proposal would decrease the number of potential lots by 1,204 throughout the Sierra Valley Study area. A number of additional permitted and conditionally permitted uses are being proposed. Lastly, several new biological constraint maps are proposed to be adopted as part of the Plumas County General Plan. These constraint maps will be used to evaluate environmental compatibility of uses requiring discretionary approval, such as special use permits, permits to mine, tentative maps and others.</p>	EIR	06/15/2001
1998091007	<p>State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano</p> <p>Caltrans, Planning</p> <p>Palmdale--Los Angeles</p> <p>The project consists of widening State Route 138 from Avenue T in Palmdale through the communities of Littlerock, Pearblossom and Llano to the State Route 18 junction. This project would consist of adding an additional 12-foot lane in both the east and west direction, a 16-foot median, and 8-foot shoulders within the project area in order to upgrade the current facility to a conventional highway.</p>	FIN

<u>Documents Received on Wednesday, May 02, 2001</u>			
2001051012	Rancho San Vicente Soledad, City of Soledad--Monterey The applicant is proposing to construct 87 single family dwellings and up to 60 multi-family affordable residential units.	JD	05/31/2001
2001051010	Irvine Northern Sphere Area EIR Irvine, City of Irvine--Orange The proposed project consists of a pre-zone, General Plan Amendment (GPA) and Zone Change (ZC) for the eventual annexation and development of planning areas 5B, 6, 8A, & 9. The GPA requests to transfer Agriculture to Residential, Multi-Use Commercial, Research & Industrial and Open Space and change Jeffrey Road from a 6- to 4-lane arterial. The ZC will change areas designated Development Reserve and Exclusive Agriculture to Low, Medium, & Med.-High Residential, Multi-Use, Recreation, General Industrial, and Medical and Science. (see IS)	NOP	05/31/2001
2001051009	Lindero Canyon Road Street and Ramp Improvements Caltrans #7 Westlake Village--Ventura Widening of Lindero Canyon Road from Agoura Road to Via Colinas in the City of Westlake Villiage from two lanes to three in each direction, plus a bike lane. The southbound Lindero Canyon Road on-ramp to the northbound US 101 will also be widened.	Neg	05/31/2001
2001051011	Old Coast Highway Bridge Replacement Santa Barbara County Buellton--Santa Barbara Replacement of Bridge 51C-113 over Nojoqui Creek with a new single-span, precast concrete design capable of accomodating modern traffic and bridge loads. The work also includes construction of new approaches, slope reconstruction, and drainage improvements.	Neg	05/31/2001
2001051013	Tesquisquita Slough Dredging San Benito County Hollister--San Benito The project involves the one-time excavating of accumulated silt from the bottom of Tesquisquita Slough to improve flow of water through the hydrologic forming area. The dredging will start from 1/2 mile north of Shore Road to 1 mile south of San Felipe Lake.	Neg	05/31/2001
2001052007	Halcyon Project - Westco Builders San Leandro, City of San Leandro--Alameda The proposed project includes development of 15 detached single-family homes and 4 attatched single-family homes on property encompassing a total of approximately 3.0 acres. The project site would be rezoned from IP- Industrial Park District, to RS- Residential Single Family with a PD-Planned Development Overlay in order to facilitate this development. The three existing parcels will be subdivided into a total of 19 parcels, ranging in size from approximately 4,455 square feet (sq ft) to 6,240 sq ft in size for the detached homes, and 2,000 sq ft to 2,592 sq ft for the attached homes. Home sizes would range in size from	Neg	05/31/2001

	approximately 2,397 sq ft to 2,838 sq ft for the detached units, and 1,400 sq ft to 1,802 sq ft for the attached units. The project applicant for this proposal is Westco Community Builders.		
2001052008	Red Bluff Bicycle Trail-Sycamore Street to Washington Street Section Red Bluff, City of Red Bluff--Tehama Bike Trail through River Park and beyond, paralleling west bank of river and north of Reeds Creek.	Neg	06/01/2001
2001052009	Proposed McCaffrey Middle School Galt Joint Union High School District Galt--Sacramento Purchase property for, and design and construct, a 13-acre middle school to serve approximately 1200 sixth through eighth grade students at full buildout. Construct an adjacent 5-acre park for joint use by the school district and the City of Galt. An additional 20 acres of the subject property will remain vacant, and will be maintained for weed control.	Neg	06/01/2001
1993092079	Roseville Regional Wastewater Treatment System Roseville, City of Roseville--Placer The project consists of a minor change to the project boundary to include approximately 73 acres of City owned property north of the Pleasant Grove Wastewater Treatment Plant to be included in the project site boundary and part of the request for a General Plan Amendment and Rezone/Prezone to a Public/Quasi-Public general plan land use designation and zoning district.	NOD	
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles The project consists of widening State Route 138 from Avenue T in Palmdale through the communities of Littlerock, Pearblossom and Llano to the State Route 18 junction. This project would consist of adding an additional 12-foot lane in both the east and west direction, a 16-foot median, and 8-foot shoulders within the project area in order to upgrade the current facility to a conventional highway.	NOD	05/31/2001
1999121090	Civic Center / Metlox Development Manhattan Beach, City of Manhattan Beach--Los Angeles The proposed Civic Center/Metlox development consists of a combined Civic Center redevelopment project (approximately 97,000 square feet) and a private commercial mixed use development (approximately 90,000 square feet). The entire project site is approximately 7 acres (4.5 acres of Civic Center and 2.5 acres of Metlox site). The Civic Center includes the existing Fire and Police facilities, which will be demolished and a new, 57,000 square foot combined facility would be constructed. The existing Library would be demolished and a new, 30,000 square foot Library and 10,000 square foot new 99-seat Cultural Arts Center would be included in the Civic Center, with subterranean and surface parking. The Metlox portion includes retail, restaurant and office uses, a 40-room lodging component, and subterranean parking. Thirteenth Street would be extended	NOD

2001022074	Multi-Phased Modernization & New Construction Project Pacific Union School District Arcata--Humboldt The Pacific Union School District proposes a multi-phased modernization and new construction project at the existing Pacific Union School site on Janes Road in Arcata, California.	NOD	
2001031108	Mount Whitney Fish Hatchery Seismic Retrofit Project Fish & Game Commission --Inyo The proposed project would provide a seismic upgrade to the existing Mt. Whitney Fish Hatchery building under the "Earthquake Safety and Public Buildings Rehabilitation Bond Act of 1990". This project would involve structural improvements to the building in order to reduce the threat to life safety under future significant ground motions. The project would address four specific areas associated with the seismic condition of the building: 1) The in-plane shear of the stone block masonry walls in the hatchery room; 2) The out-of-plane capacity of the stone block masonry walls in the hatchery workroom; 3) The horizontal diaphragm in the hatchery workroom and tower; and 4) The overturning potential of the tower walls. Because of the historical characteristics of the building, it will be afforded the requisite care that is appropriate for historical resources in seismic upgrade projects of this nature. Planning, design, and implementation of the project would also proceed in a manner that is the least disruptive as possible to the operations of this fully functioning fish hatchery facility.	NOD	
2001031115	Golden Wedge Wells Prospect Project Division of Oil, Gas, and Geothermal Resources --Kern The project request is to drill and test nine (9) exploratory oil and gas wells on 12.27 acres. Although the project identifies nine sites, all may or may not be drilled depending on the outcome of well(s) drilled.	NOD	
2001058023	Hazard Reduction Parks and Recreation, Department of --Sonoma Perform hazard reduction on trees adjacent to public use areas, residences, and maintenance yards. Disturbed soils will be covered with chipped tree material and forest duff.	NOE	
2001058024	Orchard Pruning Parks and Recreation, Department of --Sonoma Prune and conduct general maintenance of the historic and new orchards north of Highway 1.	NOE	
2001058025	Feral Pig Impact Study Parks and Recreation, Department of --Sonoma Study of the effects of feral pig activity on coastal grassland areas at two units to justify and develop strategies for control of feral pigs. The study is being conducted by permit by Sonoma State University. 18 test plots will be established with 6 control plots fenced to exclude pigs.	NOE

	with a minimum size of 7,200 square feet (sq ft). The average lot size is 8,454 sq ft and the average pad size is 6,932 sq ft. In addition, a 5.64 acre open space lot along Bundy Creek is proposed.		
2001051015	Hummingbird's Nest Ranch Project (SUP-S-541/Z-S-555) Simi Valley, City of Simi Valley--Ventura Zone change to allow a helipad in the Residential Estate zone with a Special Use Permit, to allow accessory structures greater than 15 feet in height with a Special Use Permit in the Residential Estate zone, and the issuance of a Special Use Permit for an equestrian center for private use, accessory structures over 15 feet in height and a helipad. The permit includes 11 new homes, stables, barns, maintenance barn, package sewage treatment plant, connection to the public sewer if the package plant is not approved for human waste, groundwater filter system and other accessory structures. Up to 50 horses would be kept on site.	Neg	06/01/2001
2001051016	Retina/Glaucoma Research Facility University of California, San Diego La Jolla--San Diego The proposed project would consist of 26,411 gross square feet of retina and glaucoma research space in a freestanding two-story building adjacent to and south of the Shiley Eye Center, within the northeast corner of the East Campus Health Sciences Neighborhood. An interior garden is planned between the existing and proposed facility for ground floor access, while a bridge would be constructed to connect the upper level research activities in the two facilities on the second floor. Health Sciences Walk, an important east-west pedestrian route in the east campus neighborhood would form the southern boundary of the proposed project site.	Neg	06/01/2001
2001051017	Sybil Brand Institute Upgrade Los Angeles County Sheriffs Department Monterey Park--Los Angeles The project proposes renovating existing on-site structures. No additional floor area is proposed. Additionally, the project proposes the construction of a three-story structured parking facility to accommodate 303 vehicles over an existing asphalt parking lot that currently provides parking for approximately 100 vehicles. Once the project is complete, the facility would reopen and house approximately 900 female inmates and provide employment opportunities for a total of 332 law enforcement and support staff working over three shifts.	Neg	06/01/2001
2001051018	Hilton Creek Culvert Improvement/Fish Passage Enhancement Caltrans #5 --Santa Barbara The proposed project will install concrete baffles to enhance fish passage in the existing Hilton Creek culvert, intersecting State Route 154 just south of the Bradbury Dam overlook at Caltrans milepost 13.06 in upper Santa Ynez Valley, Santa Barbara County. The culvert improvement is necessary to enhance fish passage and ensure compliance with the Federal Endangered Species Act.	Neg	06/01/2001

1992052017	Parcel Map for I.C.I. Development Company and Save Mart Supermarkets Modesto, City of Modesto--Stanislaus This is an amendment to P-D(73) to allow the addition of a seven-story tower, one-story birthing center, and one-story physical plant to an existing hospital campus.	NOD	
1992101099	TM 5139 RPI 3 Log No. 98-19-013 Sunroad Centrum San Diego County, Department of Planning and Land Use Otay--San Diego The project proposes two phases. The first involves a temporary truck/container vehicle parking and storage facility with several office trailers and service centers. A total of seven (7) trailers will be used at 20 feet by 60 feet each. The second phase of the project for future use of the site is an industrial park development for warehouse and office use. The total site is 39.30 acres. The San Diego Rural Fire District and Otay Water District are serving the project. Access will be gained from Airway Drive, located between Enrico Fermi Drive and Siempre Viva Road. The project is located inside a Minor Amendment area of the Multiple Species Conservation Program and has received letters of minor amendment concurrence from the U.S. Fish and Wildlife Service and the California Department of Fish and Game.	NOD	
1997022074	Draft Supplemental to the Revised Twelve Bridges Specific Plan SEIR Lincoln, City of Lincoln--Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2001-118 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Del Webb California Corporation. Installation of storm drain outfalls, culvert road crossings, water line crossing, and grading.	NOD	
1998092062	Acquisition of Additional Water for Meeting the San Joaquin River Agreement Flow Objectives, 2001-2010 San Joaquin River Conservancy Oakdale, Modesto, Turlock, Merced, Los Banos--San Joaquin, Stanislaus, Merced, Tuolumne, Mariposa, ... The Bureau of Reclamation may acquire from members of the San Joaquin River Group Authority up to 47,000 acre-feet of "supplemental" water if needed. The supplemental water is to provide full Vernalis Adaptive Management Plan (VAMP) test flow conditions at Vernalis during "double step years" for water years 2001 through 2010. The purpose of the Proposed Project is to supplement, under paragraph 8 of the San Joaquin River Agreement (Agreement), the water provided by the Agreement that has been analyzed in the final EIS/EIR (January 1999). This supplemental water may be needed to support the flows in the San Joaquin River at Vernalis, and to assist Reclamation in meeting the Anadromous Fish Restoration Program, Bay-Delta flow objectives as required by State Board Decision 1641, and the U.S. Fish and Wildlife Service's 1995 Biological Opinion for Delta Smelt. 	wastewater treatment plant sludges. Recognize the use of alternative daily cover materials, consistent with 27 CCR 20690. Update wood handling procedures.		
2001059004	Otay Mesa Generating Project (Docket No. 99-AFC-5) Energy Commission --San Diego 510 MW natural gas-fired power plant.	NOD	
2001059005	Fairbanks Summit San Diego, City of -- To subdivide a 20.72-acre property for the development and construction of 37 lots for 35 single-family residential units, one amenity open space lot (Lot #36) and seven affordable multi-family residential units (lot #1). The proposal includes the request to rezone the property from A-1-10 (Agricultural) to RS-1-11, formerly R-1-10,000 (Residential).	NOD	
2001059006	Tract 8124 Schell and Martin, Reliez Creek Outfall Lafayette, City of Lafayette--Contra Costa The operator proposes to stabilize the banks and install an outfall structure on the banks of an unnamed tributary to Reliez Creek. The project site is adjacent to Pleasant Hill Road and downstream of Green Valley Drive in Lafayette, Contra Costa County Assessor Parcel Number 230-180-016. Approximately 120 linear feet of the bank will be excavated and a subdrain pipe will be installed at the toe of the bank approximately 12 inches above the water. The bank will be rebuilt using geogrid reinforced fill and bioengineering planting of the bank. Approximately 480 feet downstream of the bank stabilization, a 12 inch outfall structure will be installed on the west bank. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1394 pursuant to Section 1603 of the Fish and Game Code to the project operator, Arthur Bloedorn.	NOD	
2001059007	Installation of Continous Deflective Separator Units Manhattan Beach, City of --Los Angeles Install two continous deflective separator units (CDS). One at the north end of Polliwog Park. The other unit wil be installed at the west terminus of Manhattan Beach Boulevard. CDS units are designed to capture over 90% of all the trash debris from the designated drainage area.	NOD	
2001059008	VAC 00-004; Log No. 84-10-008A; Brown Family Trust San Diego County, Department of Planning and Land Use --San Diego The project is a request for a Vacation of an open space easement on Lot 37 of tentative map 4489. This Vacation consists of vacating approximately 8,875 square feet of an open space easement, and rededicating this portion as a fire buffer easement with restrictions and exceptions. To mitigate for the loss of 8,875 square feet of Chaparral open space, a 23,500 square foot open space easement of dense Chaparral will be granted.	NOD

	area of about 300 square feet each. A total of about 25 cubic yards of gravel bedding and 55 cubic yards of rock rip-rap will facilitate revegetation. Willow cuttings will be placed in the rip-rap, buckeye trees and native grasses will be planted at the top-of-bank, and the site will be irrigated as needed in the first year to ensure vegetation establishment. Fish and Game issued Streambed Alteration Agreement Number R3-2001-0197 pursuant to Fish and Game Code Section 1603.		
2001058107	Culvert Construction Project Fish & Game #3 Petaluma--Sonoma This project consists of the construction of two culvert crossings of an unnamed seasonal tributary to the Petaluma River at 311 Monte Vista Lane. One culvert would be approximately 100 feet long, including the rock armor. Straw wattle erosion controls are included in the project design to minimize erosion of the fill material over the culverts. This unnamed tributary is an ephemeral gully with very little aquatic habitat and very little riparian vegetation and flows northerly to a stream locally called Marin Creek which flows to the Petaluma River at a confluence near Rainsville Road north of Petaluma. The project area is within the range of the California red-legged frog, but there appears to be no breeding habitat and no summer estivation habitat on the site. Fish and Game issued Streambed Alteration Agreement Number R3-2001-0165 pursuant to Fish and Game Code Section 1603.	NOE	
2001058108	Storm Drain Outfall to Silver Creek Fish & Game #3 San Jose--Santa Clara Construction of a 15' storm drain outfall to Silver Creek with sacked concrete slope protection placed along the bank at the outfall. Issuance of a Streambed Alteration Agreement Number R3-2000-1401 pursuant to Fish and Game Code Section 1603.	NOE	
2001058109	Replacement of Storm Drain Outfall Project Fish & Game #3 Healdsburg--Sonoma This project consists of replacing an existing 12-inch storm drain outfall to Foss Creek with a new 15-inch storm outfall at the same location. The project is located just upstream of the Foss Creek crossing of Healdsburg Avenue north of Healdsburg. The existing outfall is located in a grouted rip-rap bank about four feet above low summer water elevation.	NOE	
2001058110	Pierce's Disease Host Plant Vegetation Removal Fish & Game #3 St. Helena--Napa The operator proposes to clear Pierce's Disease host vegetation and replant with native species, and stabilize the banks of the Napa River. The project site is located along the Napa River in Napa County Assessor Parcel Number 030-060-025-000 at 105 East Zinfandel Lane, St. Helena. Along 1,140-linear feet of stream bank approximately 0.44-acres of riparian vegetation in nine separate sites will be selectively removed and replaced with native riparian species. Along approximately 208-linear feet of stream bank at three sites, willow wall and willow	NOE

2001051034	Highland Oaks Specific Plan and Tentative Tract Map No. 51941 Arcadia, City of Arcadia--Los Angeles The proposed project site includes approximately 83 acres located in the northeast hillside portion of the City of Arcadia. The proposed project involves the Highland Oaks Specific Plan and Tentative Tract Map 51941. The 11-lot residential development proposed under the Highland Oaks Specific Plan would be located on approximately 13 acres in the southwestern portion of the overall approximately 83 acres. The Highland Oaks Specific Plan would also establish development and maintenance regulations for the 11 residential lots and a new, gated private street.	NOP	06/05/2001
2001051035	Installation of a Combined Cycle Generating Facility at the LADWP Valley Generating Station South Coast Air Quality Management District Diamond Bar--Los Angeles The LADWP is proposing to install a new combined cycle generating facility (CCGF) to replace four existing utility boilers at the Valley Generating Station in the City of Los Angeles (Sun Valley). The new CCGF would include two combustion gas turbines (CTs), a new steam turbine generator, two heat recovery steam generators (HRSGs) and associated selective catalytic reduction (SCR) systems, cooling towers and ancillary equipment.	NOP	06/05/2001
2001052032	Oakley Redevelopment Plan Amendment Oakley, City of Oakley--Contra Costa The Amendment will change the boundary of the existing Project Area to add additional property and additional public improvement projects to the Plan. The properties to be added total approximately 700 acres. The properties include the Du Pont Chemical Company property that totals approximately 463 acres and includes all of the property on which the plant facilities existed, the buffer area to the south of the plant and the wetlands area. The area to be added also includes 161 acres located east of Bridgehead Road between Main Street (Highway 4) and the Santa Fe Railroad right-of-way in vineyard production, the marina to the west of the Du Pont property fronting on Bridgehead Road, various deteriorated or undeveloped properties on the west side of Bridgehead Road north of Main Street, the Big Break Marina, industrial properties along Big Break Road to the east of the Du Pont site, the O'Hara school site and adjacent city owned property (proposed community center), commercial properties in the 5600 block of Highway 4, and selected underdeveloped commercial properties on Brownstone at Highway 4.	NOP	06/05/2001
1998111082	De Jong Residential Tentative Map Extension-CT 98-05x1/CDP 98-26x1 Carlsbad, City of San Bernardino--San Diego Extension of a Tentative Tract Map and Coastal Development Permit for an approved 28 unit residential single-family subdivision. State Clearinghouse Number 98111082 was from a previous Mitigated Negative Declaration.	Neg	06/05/2001

2001051031	Adelanto Energy Project Adelanto, City of Adelanto--San Bernardino The Adelanto Energy Project is a proposed 45 MW natural gas fired simple-cycle power facility. This project would provide needed peak power into the California transmission system during times of high-energy demand. The Project will consist of one state-of-the-art aero-derivative combustion turbine (CT) (simple-cycle), General Electric LM6000 or equivalent. The turbine manufacturer specified would be determined by those available at the time of development. The project will incorporate best available control technology (BACT) to achieve low air emissions. Project components include a transmission line and gas pipeline.	Neg	05/14/2001
2001051032	Kwiatkowski Residence Pacific Grove, City of Pacific Grove--Monterey Proposed partial demolition, reconstruction and addition to a single family development in an environmentally sensitive area of the coastal zone.	Neg	06/05/2001
2001051033	Chlorination Facility Upgrade for Irvine Lake Pipeline Irvine Ranch Water District Irvine--Orange Facility upgrade to existing chlorination building and facilities at Santiago Dam. Safety concerns led IRWD to design new facilities that would minimize the possibility of leak or exposure. New facilities will be in conformance with Orange County Fire Authority codes and policies. Construction expected to take about 11 months and include partial demolition and construction of a building, electrical equipment and chlorinators.	Neg	06/05/2001
2001052026	Elementary School No. 9 Sylvan Union School District Modesto--Stanislaus Elementary School serving grades kindergarten through fifth grade. School would accommodate approximately 800 students and 40 staff.	Neg	06/05/2001
2001052027	Installation of a Standby Electrical Generator at the Essex Central Center Humboldt Bay Municipal Water District Arcata--Humboldt Installation of standby electrical generator at Essex Central Center.	Neg	06/05/2001
2001052028	Elk River Wildlife Area Wetland Enhancement Project Fish & Game #1 Eureka--Humboldt The California Department of Fish and Game (CDFG) proposes to enhance approximately 8 acres of seasonally flooded wetland on the Elk River Wildlife Area (ERWA). CDFG plans to excavate two target areas within the project site to maximize shallow, open water habitat, a key habitat for wintering waterfowl and shorebirds. The work plan calls for installing a flashboard riser water-control structure on the site to allow the proper management of this enhancement. Further, an existing water control structure on the site to allow the proper management of this enhancement. Further, an existing water control structure will be repaired and an existing culvert will be removed to further facilitate water retention in targeted basins.	Neg	06/05/2001

	with 4 rooms on the first six floors and 2 rooms on the top floor. Currently, the front of the existing hotel on West Cliff Drive is recessed about 14 feet from the remainder of the building for a distance of approximately 55 feet. The proposed expansion will fill this space and expand the building to the street by approximately 17 feet. The exterior remodel will be in a Spanish Colonial Revival style. In order to provide tiled roofs and architectural treatments, the building height will increase from approximately 66 feet to 73 feet at the midpoint of the roof. The project also requires approval of a heritage tree permit for removal of 5 redwood trees.		
2001052049	CUP 2001-7, Coyote Valley Expansion/Hiatt Ready Mix Inyo County Planning Department Bishop--Inyo Expansion of existing gravel pit from mining 16,500 cubic yards per year to 66,000 cubic yards/year and increase mining depth from 12 feet to 20 feet.	Neg	06/05/2001
1980121901	Proposed Tentative Tract Map No. 16003, Base Line Street Widening and Tree Removal Permit Highland, City of Highland--San Bernardino California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (SAA#6-113-00) pursuant to Section 1603 of the Fish and Game Code to the project applicant, S-P East Highlands, LLC. The applicant proposes to construct a single-family residential development comprised of 105.5 acres. The proposed project is an incremental development component of an approximately 1,776-acre planned unit development approved by the City of Riverside in 1982 and by the City of Highland subsequently in 1992. Project development will affect two drainages identified as jurisdictional under section 1600 of the California Fish and Game Code, namely Elder Gulch, an intermittent blueline stream and an unnamed ephemeral gully. The gully feature is isolated from other drainages in the region and is not part of a larger tributary system. The primary source of water appears to be irrigation runoff from the adjacent orchards. The gully may also receive ephemeral runoff from winter storm events. No sensitive species are known or expected within the project area, as described in the submitted application. The project is located south of Lake Matthews in Riverside County.	NOD	
1988022317	Morada Lane Project - EIR 1-88 Stockton, City of Stockton--San Joaquin Approval of a Temporary Use Permit to allow four model homes with a sales office and a maximum of 15 flags at 3443, 3451, 3459 and 3467 Matterhorn Drive.	NOD	
1995023021	Tract 1815 - Leisure Hills Estates Shasta County The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, (Scott Williams and Jim Williams representing Leisure Hills Estates of Bella Vista). The applicant proposes installation of 5(five) culverts for subdivision roads on unnamed tributaries to Little Cow Creek, Shasta County.	NOD

	includes a 1,370 square foot bike station, public restrooms and a shared trash facility for the parking structure, offices and surrounding businesses.		
2000122064	McCloud Sewer System Improvements McCloud Community Services District --Siskiyou The proposed project includes construction 55,000 linear feet of replacement gravity sewer main, rehabilitation of approximately 6,000 linear feet of gravity sewer main, construction of new manholes, and new service laterals.	NOD	
2001022088	Benton Rehabilitation Caltrans --Mono The project proposes to rehabilitate a portion of U.S. Route 6 in and near the community of Benton in Eastern Mono County. The project consists of pavement rehabilitation, construction of paved chain-up areas, construction of a temporary detour, and replacement of an existing culvert with a bridge at Spring Canyon Wash.	NOD	
2001031010	Tentative Parcel Map 20523 (P 48-007W1); Log No. 00-14-034 San Diego County, Department of Planning and Land Use La Mesa--San Diego The Tentative Parcel Map proposes splitting one parcel into two parcels. Parcel 1 will remain a little league field and horse-riding ring. Parcel 2 will be developed into one single-family lot. Access will be taken off of Russell Road. Water service will be provided by Helix Water District, sewer service will be provided by Otay Water District, and fire service will be provided by San Miguel Consolidated Fire Protection District. A Major Use Permit Modification will be required to eliminate Parcel 2 from the Major Use Permit, which is still operational.	NOD	
2001041027	Owens Valley CDF Conservation Camp Utilities Replacement Project Forestry and Fire Protection, Department of Bishop--Inyo The California Department of Forestry and Fire Protection (CDF) proposes to: Install a new water well that is adequately separated from a nearby septic system and to provide adequate water capacity to meet the Uniform Fire Code for buildings on the site. Update the water distribution system to the various buildings on the site in accordance with the Uniform Plumbing code. Remove overhead utility lines and replace with underground electrical service to improve the reliability of service on the site, remove overhead hazards and improve appearances. Install a septic to a more advantageous location and to meet Uniform Plumbing Code requirements. Connect waste lines from the existing trailer residences to the new septic tank. Perform additional site work, including patching of asphalt paving, concrete work, and four new site lighting poles and fixtures. Install a new floor hoist system at an existing maintenance building.	NOD	
2001042026	Squaw Valley CDF Forest Fire Station Replacement Project Forestry and Fire Protection, Department of --Fresno The California Department of Forestry and Fire Protection is proposing to replace several structures at the existing Squaw Valley Forest Fire Station. 2001054003	North Fork Rancheria U.S. Department of the Interior --Madera Proposed project will transfer 61.52 acres into Federal Trust for the North Fork Rancheria of Mono Indians. Subsequent to trust acquisition is the construction of 37 dwellings, an administrative building, a library, and health clinic.	EA	06/06/2001
1999031038	Cambria Flood Mitigation Project; ED97-852 (C970022E) San Luis Obispo County The County of San Luis Obispo is proposing to initiate a flood mitigation project in the community of Cambria to address overbank flooding of the West Village from Santa Rosa Creek and internal drainage problems from overland flows from the hills to the north of the commercial section of the village. The proposed action entails two components. The first component addresses the flooding from Santa Rosa Creek by creating a floodwater bypass in an unpopulated vacant field adjacent to Highway 1. The second component includes the construction of the gravity pressure storm drain and pumping plant to convey hillside runoff to Santa Rosa Creek.	EIR	06/21/2001

1998041040	Altamont Water Treatment Plant Project Alameda County Flood Control and Water Conservation District Livermore--Alameda As one of the ten active zones of the Alameda County Water Conservation and Flood Control District, Zone 7 has served eastern Alameda County and the Livermore-Amador Valley since 1957. The studies embodied in Zone 7's Water Supply Planning Program identified the potential need for a new water treatment plant in the Altamont Pass area north of Interstate Highway 580 and west of the South Bay Aqueduct. As one component of Zone 7's Water Supply Planning Program for the next 5 years, a new water treatment plant in this area was recommended to move Zone 7 toward a three-plant configuration that would provide up to 96 million gallons per day total for municipal and industrial needs through the year 2020.	FIN	
2000041104	Route 1 (Lincoln Boulevard) Widening Projects Between La Tijera Boulevard and Hughes Terrace Caltrans #7 Playa del Rey, Los Angeles, City of--Los Angeles The proposed project consists of widening Route 1 (Lincoln Boulevard) from La Tijera Boulevard to Hughes Terrace. Specifically, this includes widening to add a fourth through lane in the northbound direction and maintain three through lanes in the southbound direction.	FIN	
2000121126	State Hwy. Route 1 Widening from Jefferson Blvd to Fiji Way; Construction of New Bridge over Ballona Creek and Replacement of the Culver Boulevard Overcrossing Caltrans --Los Angeles The California Department of Transportation (Caltrans) proposes to improve traffic conditions on Route 1 (Lincoln Boulevard) in the City of Los Angeles, in Los Angeles County, through a proposed project whereby Route 1 (Lincoln Boulevard) will be widened from Jefferson Boulevard to Fiji Way, a new bridge over Ballona Creek will be constructed, and the Culver Boulevard overcrossing will be replaced. The project may encroach upon the floodplain. The proposed work will require the acquisition of right of way.	FIN	
2001051037	Specific Plan No. 212, Amendment No. 1 and Change of Zone No. 6526 Riverside County Planning Department --Riverside Specific Plan No. 212, Amendment No. 1 consists of 390.5 acres and the following purpose: 274 acres of residential uses with a maximum of 499 dwelling units, 6.6 acres of parks, 92.6 acres of open space and 17.1 acres of primary roads. A related application, Change of Zone No. 6526, proposes to change the zoning within Specific Plan No. 212, Amendment No. 1 from Controlled Development Areas (W-2) to Specific Plan.	NOP	06/07/2001

1995103005	IT Panoche Hazardous Landfill Closure and Post Closure Toxic Substances Control, Department of Benicia--Solano This project will authorize IT to implement corrective actions to cleanup groundwater and soil contamination at DBA V at the IT Panoche Facility. Proposed remedial activities include: construction of a trench adjacent DBA V to intercept highly contaminated groundwater, a soil vapor extraction system to remove residual contamination improvements to the existing groundwater extraction system to enhance groundwater capture, and onsite treatment of the collected gases and groundwater. IT will be required to operate these systems until the corrective action objectives are achieved to DTSC's satisfaction. The drums have been removed from this area and residual contamination is under a protective cap. DTSC will monitor DBA V and the rest of the IT Panoche site for the foreseeable future.	Neg	06/06/2001
2001051036	West Miramar Landfill Traffic San Diego, City of --San Diego Proposed revision to the City's State Solid Waste Facilities Permit to allow the increase of the permitted daily traffic at the City's West Miramar Landfill from current allowable 1400 daily trips to 2000 trips.	Neg	06/06/2001
2001051038	Closure of the Industrial Waste Line - Former Norton Air Force Base Toxic Substances Control, Department of San Bernardino--San Bernardino This project is to close an industrial waste line, a clay pipe 2 miles long together with 1 mile of feeder pipes. The industrial waste line conveyed wastes from airline maintenance shops to disposal facilities (lagoons) and industrial waste treatment plant. The lagoons and industrial waste treatment plant are undergoing closure and remediation in separate projects. The industrial waste line will be closed in place by filling the existing pipe with cement, after cleaning out residual hazardous waste remaining in the pipe.	Neg	06/06/2001
2001052037	LMWD - Sediment Removal and Storage Lake Madrone Water District --Butte Remove sediment from Berry Creek, Galen Creek and Lake Madrone as required by the Regional Board. After the sediment is removed, some sediment will be replaced to revegetate.	Neg	06/06/2001
2001052038	Richardson Final Map Subdivision Humboldt County Planning Department Fortuna--Humboldt Subdivision of an approximate 26.9 acre parcel into two parcels of approximately 12.4 and 14.5 acres. The existing residence and septic system on Parcel 1 shall remain. After the subdivision, Parcel 2 will be developed for residential use and will be served by an on-site sewage disposal system. Water source for Parcel 2 will be the existing spring and access will be off of Schirman Way.	Neg	06/06/2001

2001052039	360networks Phase II, California Fiber Optic Project Public Utilities Commission --Los Angeles, San Diego, Sacramento Phase II of the 360net project will involve the construction of 26 "regeneration stations" along the project alignment from Sacramento to Los Angeles and Los Angeles to San Diego. Regeneration stations reamplify the signal transmitted over the fiber optic cable. These regeneration stations occupy about two acres. Most of the fiber optic cable along the route has already been installed by other telecommunication carriers. 360net has purchased the right to use the fiber optic cable.	Neg	06/06/2001
2001052040	Development of Public Benefit Conveyance Parcels 2 & 3 Novato Unified School District Novato--Marin The project proposes the development of former Hamilton Army Airfield property. The Novato Unified School District would convert the use of PBC Parcel 3 to a parking facility for Hamilton Elementary School, to develop a character school on PBC Parcel 2, and to lease a portion of PBC Parcel 2 to a child development facility.	Neg	06/06/2001
2001052041	AT&T Monopole Truckee, City of Truckee--Nevada Construction and operation of an unnamed telecommunications facility located at the "Gateway" water tank site. The facility will consist of a 40' x 20' lease area containing an equipment shelter and 104 feet high tree pole with two (2) directional panel antennas mounted on the tree pole at approximately 100' high. The pole will be designed to have the appearance of a pine tree. A 6' high wood fence will be constructed to enclose the equipment shelter building and tree pole.	Neg	06/06/2001
2001052042	Hercules Amerisuites Hotel Project Hercules, City of Pinole--Contra Costa The proposed project entails subdividing an existing 6.8 acre parcel into 4 separate parcels with construction of a 4-story, 69,000 square foot hotel with 120 guest rooms on a 3.2 acre site constituting the largest of 4 parcels. A 2-story medical office with 25,000 square feet of floor area on a 1.2 acre parcel adjacent to the hotel. A 5,200 square foot restaurant and a 3,000 square foot, 2-story bank. A total of 265 parking spaces are provided on the 6.8 acre site.	Neg	06/06/2001
2001052043	Refugio Valley Road Subdivision Project Hercules, City of Pinole--Contra Costa Subdivision of a 5-acre parcel into 25 separate lots with construction of a 2-story single family home on 24 of the parcels; the remaining parcel would remain as undeveloped open space. The lots vary in size from 3,600 square feet to approximately 8,500 square feet. Homes are from 3,149 square feet to 2,477 square feet. Every home has a 2-car garage.	Neg	06/06/2001

2001032108	<p>El Dorado Lift Station South Pond Reconstruction Project El Dorado Irrigation District --El Dorado</p> <p>The project involves the reconstruction/lining of the South Pond through regrading and/or installation of a liner to provide peak wet weather equalization storage during storm events. The District will construct the appropriate lining to meet the existing California Regional Water Quality Control Board, Central Valley Region waste discharge requirements for the El Dorado Lift Station Equalization Pond, including preventing wastewater contaminants from percolating into groundwater. The pond will be constructed, operated and maintained to prevent inundation or washout associated with a 100-year storm event. The District's construction contract documents will include protecting soil stockpiles, or other materials that can be blown away by wind, covering, or watering. It will also include washing affected paved areas at least once daily, in accordance with El Dorado County APCD Rule 223.</p>	NOD	
2001032122	<p>Initial Study/Mitigated Negative Declaration for the El Monte Avenue/State Route 32 Intersection Improvements Project Chico Unified School District Chico--Butte</p> <p>The project entails pavement widening, signalization, and striping in the Caltrans right-of-way at the intersection of SR 32 and El Monte Avenue. The road widening will require lengthening of culverts and placement of fill material within the State right-of-way. The widening will also require a minor right-of-way dedication to the County of Butte. Pavement widening will facilitate the addition and improvement of turning lanes. The proposed project would improve access across SR 32, and to and from Marsh Junior High School, the planned municipal recreation center, and future planned residential developments in the immediate area.</p>	NOD	
2001032142	<p>Memorial Fireworks Display at Sly Park El Dorado Irrigation District --El Dorado</p> <p>The project will involve a 15-minute fireworks display accompanied by music on May 19, 2001, from barges located in Sly Park Reservoir. The largest shell caliber will be 6 inches. Although state law requires a safety zone of 70 feet diameter per inch caliber, the safety zone for this event will be 100 feet per inch caliber. Two patrol boats from the Sheriff's Department are planned to be present, along with two other boats from the company for security during the show. The California Highway Patrol is expected to provide coordination of traffic control around the Park on public roads, and the El Dorado County Sheriff's Department Explorers' Program has been asked to conduct traffic and parking patrol in the park. Fire and law enforcement units from the California Department of Forestry will be present for public safety purposes.</p>	NOD

2001058291	Swinging Chain Link Fence in Unnamed Tributary to Peralta Creek Fish & Game #3 Oakland--Contra Costa The operator proposes to install a chain link fence around the perimeter of his property at the above address. Where the Fence crosses the stream, a swinging fence structure will be constructed so that it moves out of the way during periods of foul weather. Issuance of a streambed Alteration Agreement Number R3-2001-0125 pursuant to Fish and Game Code Section 1603.	NOE	
2001058292	SFAR Pipeline Repair (TOSCO) Fish & Game #3 Martinez--Contra Costa The operator proposes to replace approximately 150 feet of an existing 12 inch pipeline at the above project location. Construction includes the excavation of soil along the top of the banks and down the banks approximately 3 feet. Five native trees will be removed and mainline valves will be installed at least 10 feet back from the top of each bank. Issuance of a Streambed Alteration Agreement Number R3-2001-0077 pursuant to Fish and Game Code Section 1603.	NOE	
2001058293	Building 570 Laboratory Conversion University of California, Santa Barbara --Santa Barbara The project would involve the renovation of approximately 2,777 ASF in the 1200 wing of Building 570 for the College of Engineering. Work includes demolition of existing interior partitions and walls, HVAC ducting, piping, and flooring. Improvements include construction of a one-hour firewall separation, new walls, ceiling and floors, cabinets, lab benches with piping to sinks and electrical, installation of one fume hood, room exhaust fans, industrial water heater and chiller for dark room temperature control and general office/lab zones.	NOE	
2001058294	Issuance of Streambed Alteration Agreement to #00-0692, Eel River at Howe Creek, Humboldt County Fish & Game #1 Rio Dell, Fortuna--Humboldt This project is for the annual, non-commercial removal of up to 500 cubic yards of gravel for use on ranch roads and for erosion control. Extraction site is above the ordinary water-line of the Eel River, Humboldt County.	NOE	
2001058295	Addendum to: Maintenance of Roaring River Distribution System Levees Water Resources, Department of Fairfield--Solano The project includes the repair of approximately 100 linear feet of eroded levees due to winter storm activities. Some maintenance activities will take place in areas where work has not been done within the last two years. Other areas require erosion repair in areas where more extensive repairs were done in 1999.	NOE	
2001058296	Union Pacific, Curtis Park Railyard, Western Boundary Removal Action Toxic Substances Control, Department of Sacramento--Sacramento Removal of approximately 500 cubic yards of buried debris containing levels of lead exceeding the unrestricted use level of 220 parts per million from four back yards abutting the western boundary of the UP Curtis Park Railyard, active track	NOE

	area. This material extends approximately up to 25 feet into the backyards to approximately 10 feet from the closest residence. Dust control measures and air monitoring will be conducted to ensure that lead contaminated dust is not released into the air. The excavated areas will be returned to grade using clean backfill. Remedial and restoration work will be conducted by UP and their contractors under DTSC staff oversight.		
2001058297	Groundwater Engineering Evaluation/Cost Analysis (EE/CA) and Remedial Action Work Plan (RAW) - Front and T Street Site, Sacramento, California Toxic Substances Control, Department of Sacramento--Sacramento The Groundwater Remedial Action Work Plan (RAW) proposes Monitored Natural Attenuation (MNA) as the remedy for the downgradient portion of the contaminated groundwater plume. The project involves continued regular groundwater monitoring of a network of existing wells until the concentrations of all of the contaminants of concern reach the remedial action objective. Samples will be taken for the first five years of the project, on selected wells for laboratory analysis of biodegradation parameters, to be sure that biodegradation is continuing at the current rate. These samples will be analyzed for nitrate, sulfate, dissolved iron, dissolved manganese, and methane.	NOE	
2001058298	Chapel Seating Parks and Recreation, Department of Pacific Grove--Monterey Replace existing seating in the Chapel with fixed seating replicating the original design with some modifications to meet contemporary needs.	NOE

	<p>currently used to grow row crops.</p> <p>The site contains prior converted wetlands and parts of the site drain poorly due to uneven site surface. The proposed project would include:</p> <ul style="list-style-type: none"> * stripping the topsoil from the site and temporarily storing it on-site; * excavating up to 360,000 cubic yards of fill material from the site and transporting it to the North Beach Levee via existing service and levee roads; * replacing the topsoil; and * leveling the site. <p>The parcel would then be returned to agricultural use.</p>		
2001052046	<p>Edgewood Estates and Rathgar Court Subdivisions San Mateo County Redwood City--San Mateo</p> <p>The proposed projects consist of two adjoining residential subdivisions (Edgewood Estates and Rathgar Court) within the unincorporated community of Palomar Park, San Mateo County. Each of the proposed subdivisions is described in detail below. The proposed Edgewood Estates project consists of a 13-lot single-family residential subdivision on a private gated road, with lot sizes ranging from 20,040 square feet to 31,823 square feet (see Figure 3). Lots are proposed to be located on both sides of a new curvilinear cul-de-sac, which would be 22 feet wide with a five-foot wide asphalt sidewalk on one side and no street lights. The lower portion of the proposed cul-de-sac would be located in place of the existing on-site road that leads to the two existing residential units. All utilities would be located under the cul-de-sac, including water, sewer, natural gas, electricity and telephone. Storm drain inlets would be provided along the lower portion of the cul-de-sac to convey storm water runoff to a 12-inch storm drain, and then to an on-site retention basin proposed to be located within Lot No. 13 near the gated entrance. Storm water runoff would then be piped off-site to an existing 18-inch storm drain located in Edgewood Road. Site access is currently available from Edgewood Road. Septic systems are used for wastewater disposal, and water service is tapped directly from the Hetch-Hetchy water lines, which are located approximately 120 feet south of the site. Electricity, telephone and television service are provided from overhead lines, whereas natural gas is delivered to the site via an existing underground line. The proposed Rathgar Court project consists of a five-lot single-family residential subdivision on a private road, with lot sizes ranging from 20,100 square feet to 21,900 square feet (see Figure 4). The on-site portion of the private road would be 22 feet wide with a five-foot wide asphalt sidewalk, and would end with a cul-de-sac with no street lights. The off-site portion of the private road situated within SFWD lands would be 22 feet wide with no sidewalk, and would continue to provide access to the adjacent single-family residence located at 1708 Edgewood Road. The five-lot subdivision is proposed to surround the cul-de-sac. Proposed utilities include underground water lines, sewer, storm drain and natural gas, as well as electricity, telephone and cable television via overhead lines. Storm drain inlets would be provided along the lower portion of the on-site road, which will convey storm water runoff to an underground detention storage pipe beneath the road, and eventually to an energy dissipator.</p>	NOP	06/07/2001

	proposes installation of 2 (two) culverts and subdivision roads on an unnamed tributary to Hooker Creek, Tehama County.		
2001058314	Sempre Open Space Mountains Recreation and Conservation Authority Whittier--Los Angeles Planning process to explore design options and feasibility for the acquisition of open space and subsequent construction of an at risk youth camp on the Sempra Property.	NOE	
2001058315	Issuance of Streambed Alteration to Agreement #01-0131, Clover Creek, a Tributary to Churn Creek, Shasta County. Fish & Game #1 Redding--Shasta This project is the installation of culvert(s) or bridge on Clover Creek, Shasta County to provide access to a home. Natural rock/boulder rock slope protection will also be placed along the bank and fill immediately adjacent to the crossing to protect against erosion. Utility and/or water lines may be trenched through and installed below the channel bed adjacent to the crossing.	NOE	
2001058316	Nitrate Blending Facility King City King City--Monterey The California Water Service Company supplies domestic water to King City, and is proposing to operate a groundwater blending facility at Cal Water's Station 7 off Windsor Court in King City. The purpose of the facility is to blend groundwater containing elevated levels of nitrates with a low nitrate level groundwater source to produce water that has nitrate levels will below MCL (45ppm). This project was determined to be necessary since Station 2 has two wells that are high in nitrates and Station 7 has one well that is low in nitrates. This project affects the City's water system, and therefore the residents of King City who use the public water system will be the beneficiaries of the project.	NOE	
2001058317	San Diego River Watershed Property Acquisition State Coastal Conservancy --San Diego Transfer of property from U.S. Marshal's Service to State Coastal Conservancy to City of San Diego for habitat, open space and watershed enhancement and conservation purposes.	NOE	
2001058318	5 MW Diesel Back-Up Generator Project Palo Alto, City of Palo Alto--Santa Clara The City of Palo Alto proposes to install four temporary, portable, diesel 1.35-MW generators at the Municipal Service Center at 3201 E. Bayshore Road. The back-up generators would be used during Stage 3 electric shortages when the California Independent System Operator(ISO) has required Palo Alto to curtail load on the electric system. The City of Palo Alto would use the back-up generators to reduce rolling blackouts. The proposed project will also involve the relocation of	NOE

CADS, MCAS Miramar proposes to detonate all 8,000 M190 CADS at the MCAS Miramar Explosive Ordnance Disposal (EOD) training range. The CADS will be transported from the storage area to the range located in Sycamore Canyon using military vehicles with permitted military explosive drivers on remote base roads. The proposed detonation will take place in a remote part of Sycamore Canyon approximately 2.25 miles from the nearest resident, and noise from the detonation would not pose a significant impact.

2001052065	<p>Post Street Project 185 San Francisco Planning Department San Francisco--San Francisco</p> <p>The project site is one block east of Union Square in downtown San Francisco, at the southeast corner of Post Street and Grant Avenue (Assessors Block 310, Lot 18). The 3,600-square-foot project site, situated within the Kearny-Market-Mason-Sutter Conservation District, is occupied by a vacant six-story-plus-basement structure that consists of approximately 15,400 square feet of retail space and 10,800 square feet of office space. The proposed project would consist of demolition of the existing 26,200-square-foot building and construction of a new ten-story-plus-basement. 130-foot tall building that would serve as the West Coast headquarters and retail store of the apparel company Prada USA. The new structure would contain approximately 39,300 square feet with part of the basement serving as storage and mechanical equipment space, display space and a reception area on the ground floor, retail space on the second through fifth levels, open space on the sixth level, showroom space on the sixth and seventh levels, office space on the eighth and ninth levels, and a private residential space on the top floor. In total, the project would provide approximately 4,400 sf. of office space, 6,800 sf. of retail space, 1,500 sf. of showroom space, 1,700 sf. of residential space, 2,250 sf. of open space, and 22,650 sf. of storage and other space. The proposed structure would be 42 feet taller than the 88-foot tall structure currently on the project site. The site is within the C-3-R (Downtown Commercial, Retail) Zoning District and 80-130-F Height and Bulk District.</p>	EIR	06/27/2001
2001012031	<p>Moore Creek Drainage Remediation Project University of California, Santa Cruz Santa Cruz--Santa Cruz</p> <p>The proposed project is the remediation of eroded conditions in mostly undeveloped portions of two forks of the lower Moore Creek drainage on the southwest UCSC campus. University of California Santa Cruz.</p>	FIN	
2001051063	<p>Malibu Bay Company Development Agreement Malibu, City of Calabasas--Los Angeles</p> <p>The proposed statutory Development Agreement (DA) between the City of Malibu and the Malibu Bay Company would implement 20 years of land use entitlements and requirements for the Malibu Bay Company's remaining undeveloped land within the City. The proposed EIR would provide CEQA documentation for the DA, with a project-specific level of analysis sufficient to allow for development of each of its components. The proposed EIR would also be tailored such that impacts from individual properties, or a group of properties could be determined in the event that one or more of the proposed projects does not receive the necessary discretionary approvals. The DA would govern development of the Malibu Bay Company's 12 properties within the City of Malibu which are clustered into three general locations; the Malibu Civic Center, Point Dume and the base to Trancas Canyon.</p>	NOP	06/12/2001

2001051065	Consolidated Redevelopment Project Plan Buena Park, City of Buena Park--Orange The proposed Consolidated Redevelopment Project Plan encompasses the three existing redevelopment projects and adds sizable new area. The Project Plan also extends the deadline to incur debt and the timeline to use eminent domain powers, power which is limited to non-residential areas in Buena Park's redevelopment plans. The project also proposes to modify the financial limits for the resulting merged and amended redevelopment project. The three existing redevelopment projects are: 1) the Central Business District Project and its amendments, 2) the Project Area II and its amendments, and 3) the Project Area III and its one amendment. Added areas are approximately 2,458 acres in size (2,946 acres with streets and freeway), for a total of 3,050 acres in the Consolidated Project Area (or 3,955 acres with streets and highways). The proposed actions are all being taken in accordance with the standards of the California Community Redevelopment Law (CRL), Health and Safety Code Section 33000, et seq.	NOP	06/12/2001
2001052072	2000-2020 Regional Transportation Plan (RTP) Program Environmental Impact Report Placer County Colfax, Lincoln, Rocklin, Roseville, Loomis, Auburn--Placer The purpose of the Placer County RTP is to establish policy guidance, programs, and transportation improvements for the next twenty years that provide a balanced and comprehensive multi-modal transportation system in Placer County. The RTP identifies regional transportation issues, considers all modes of travel, and proposes solutions for the cities and unincorporated areas of Placer County.	NOP	06/12/2001
2001032099	Cannery Area Design Plan Hayward, City of Hayward--Alameda The Design Plan establishes a framework for the transformation of an older industrial area into a new neighborhood containing a mix of housing densities, retail and office commercial, a new school and community center, and expanded parks. 	years; 4) Raises the current limit on the amount of bonded indebtedness that can be outstanding at any one time from the allocation of taxes to the Added Area, from \$7,000,000 to \$40,000,000. 5) Makes clarifications and modifications to the Original Plan including those as may be appropriate or necessary to ensure conformance with current redevelopment law.		
2001051062	EA SD 5-01; Conditional Use Permit No. 1, Map No. 118-20 Kern County Planning Department --Kern A Conditional Use Permit to allow a nonhazardous oil production and/or oily waste disposal facility. Development would entail the conversion of an existing oil well into a commercial injection well which would operate as a Class II disposal facility under a permit issued by the California Department of Oil, Gas, and Geothermal Resources (CDOGGR). Only nonhazardous Class II fluids approved by CDOGGR would be injected into the well. Fluids would be transported to the facility from area oilfield operations within a 35 mile radius of the site in standard oilfield tanker trucks. The fluids would then be off loaded into two existing 1,000 barrel storage tanks prior to their injection into the well via a line from the storage tanks. A maximum volume of 3,000 barrels of fluid would be injected down the well each day. The applicant estimates that associated traffic will consist of 5 to 10 trucks daily, with a lesser amount of traffic on weekends. No significant new construction is proposed. Modification and/or additions to the existing piping, storage or pumping equipment would be done when needed. A means of water supply and sewage disposal is not proposed.	Neg	06/12/2001
